

SOFFITS

FLEXLOC®

Available in a 9½-inch width, the FlexLoc® panel is clipped down to a waterproofed solid substrate, when used in roof applications.

Features and Benefits:

- For the designer who wants a barrel vault with horizontal lines and a smooth look (no standing seams), FlexLoc® is the recommended product for applications with a minimum of a 10'-0" radius.
- Because the panels are generally installed horizontally following the curved surface, pre-curving of the FlexLoc® panel is not required or offered.
- FlexLoc® is a non-structural panel.
- Download the manual for factory curved rake trim and other product checklist accessories
- For continuous panel applications over 20'-0", please inquire.
